

# DRYWALL PROFILE PRODUCTION LINE

## 12-Station Servo Flying Shear Rollforming Line

“Shaping the Future of Steel with the Power of Engineering.”

The Bluemarin Series by SVS Machinery delivers high-speed, precise, and efficient production of drywall profiles, achieving 60 m/min.

Equipped with a 2.5-ton decoiler, 12-station servo rollforming machine, and automatic stacking unit, the line offers a compact yet powerful production solution.

Profile Variety: Capable of producing 14 different profile types and sizes

Available Profiles:

- Wall Profiles (U & C): 50 mm, 75 mm, 100 mm base widths
- Ceiling Profiles (U & C)
- Optional: L, M, and J profiles

Material Thickness: 0.3–0.6 mm galvanized steel.

The fully automated PLC & HMI control system, powered by SVS MACHINERY’s proprietary software, ensures intelligent, reliable, and flexible production.

No:	TYPE	CODE	PROFILE SIZE
1	WALL PROFILE	U-50	50mm X 30mm
2	WALL PROFILE	U-75	75mm X 30mm
3	WALL PROFILE	U-100	100mm X 30mm
4	WALL PROFILE	C-50	48,5mm X 35mm
5	WALL PROFILE	C-50	48,5mm X 40mm
6	WALL PROFILE	C-50	48,5mm X 45mm
7	WALL PROFILE	C-75	73,5mm X 35mm
8	WALL PROFILE	C-75	73,5mm X 40mm
9	WALL PROFILE	C-75	73,5mm X 45mm
10	WALL PROFILE	C-100	98,5mm X 35mm
11	WALL PROFILE	C-100	98,5mm X 40mm
12	WALL PROFILE	C-100	98,5mm X 45mm
13	CEILING PROFILE	U-30	29mm X 24mm
14	CEILING PROFILE	C-60	60mm X 27mm
